SUMMARY OF TELEPHONIC INTERVIEW

Pursuant to MPEP § 713.04, Applicants submit this Summary setting forth a statement of the substance of the telephonic interview on July 11, 2005.

Brief Description of the Nature of any Exhibit Shown or any Demonstration Conducted:

No exhibits were shown and no demonstrations were conducted.

Identification of the Claims Discussed:

Independent claims 1 and 13 were discussed.

Identification of Specific Prior Art Discussed:

U.S. Patent No. 6,182,275 to Beelitz ("Beelitz") and U.S. Patent No. 6,853,978 to Forth et al. ("Forth") were discussed.

Serial No. 10/054,503
Filed: 1/22/2002

1735/SPRI.90852

Identification of the Principle Proposed Amendments of a Substantive Nature Discussed:

Applicant's representative and the Examiner briefly discussed potential amendments to independent claim 1.

The General Thrust of the Principal Arguments of Applicant and the Examiner:

With respect to the 103(a) rejection of independent claim 1, Applicant's representative indicated that there is no motivation or suggestion to modify the Beelitz reference with the Forth reference. The modification would render the Beelitz invention unsatisfactory for its intended purpose and would change the principle of operation of the Beelitz reference. Applicant's representative also indicated that the references failed to teach or suggest all of the claim limitations.

With respect to the 103(a) rejection of independent claim 13, Applicant's representative briefly indicated that there was similarly no motivation or suggestion to modify the Beelitz reference and that the references failed to teach or suggest all the claim limitations.

General Indication Of Any Other Pertinent Matters Discussed:

The Examiner kindly indicated that she would take all arguments into consideration.

Respectfully submitted,

John S. Golian
